To the WSD Community:

With sincere regret the School Board accepts the resignation of Superintendent Dr. Linda Iverson.

Five years ago, I had the honor of calling Dr. Iverson to invite her to be our new Superintendent. What impressed the board then and does still today was her determination to create only the best educational opportunities for Wilkinsburg students. She has built strong and capable administrative, faculty, and staff teams that share her vision for excellence. She has positioned and prepared us to compete as one of the best districts in Pennsylvania.

She has achieved nothing short of a transformation; she and her team have planned and achieved accomplishments too numerous to list here. The Kelly Primary/Turner Intermediate model, improved PSSA scores, her distributive team framework, and a new, authentic focus on ELA and Math, are just a few. Her focus has been laser-sharp, and all along she supported the faculty with the professional development needed to ensure expertise, engagement, and success.

Thanks to her passion and leadership, we are now a district poised for our future, ready to fly, systems and plans in place. We are respected as an innovative, successful district. This is Dr. Iverson's parting gift to us. We know that every member of the administrative, teaching and support teams will remain faithful to the path she has shown us while the Board launches a search for a new leader. We will keep everyone informed of our progress.

Godspeed, Dr. Linda Iverson!

President of the Board
